Ziyang Chen

Education

Sept. 2019 - Present **Master of Science in Engineering**, *University of Michigan - Ann Arbor*.
Major: Computer Vision
Course to select: Computer Vision & Machine Learning

Sept. 2015 - Aug. 2019 **Bachelor of Science in Engineering**, *Shanghai Jiao Tong University (UM-SJTU JI)*.
Major: Electrical and Computer Engineering || Minor: Entrepreneurship
GPA: 3.60/4.0 with honors (**Rank: 7/111**) & Graduated magna cum laude
Coursework: Image and Signal Processing, Programming Language & Algorithms, Data Science

Research Experience

Sept. 2019 – Present **Research Assistant**, *University of Michigan - Ann Arbor*, IOE Research Lab, Cong Shi.
- Research Topic: Application of Adwords Problem under Carpool Situation.
- Utilize mathematic derivation to prove the advantage of the algorithm in practical application.

Work Experience

Sept. 2018 – Aug. 2019 **Teaching Assistant**, *Shanghai Jiao Tong University*.
- Courses: *Digital Integrated Circuits*, *Electronic Circuits*.
- Conducted experiments, Held office hours and taught recitation classes every week.

Mar. 2018 – Apr. 2018 **Algorithm Engineer Intern**, *Freesense Image Inc.*, Shanghai.
- Involved in a project of Detection of Car LCD Screen with the R&D department.
- mplemented an auxiliary system based on Deep Learning and Faster-RCNN that detects and classifies the objects on the LCD screen and improved the accuracy on large-scale datasets.

Selected Projects

May 2019 - Aug. 2019 **Prediction Model based on Bayesian Hierarchical Clustering**, *SJTU*.
- Applied Bayesian Hierarchical Clustering algorithm to make roughly correct prediction with limited data provided.
- Processed, re-generated and achieved efficient algorithms in Julia.

Sept. 2018 - Jan. 2019 **Design of Evaluative System for Online Car Hiring Service**, *DiDi Co.*
- Applied China-Word-Vector & Recurrent Attention Network to train the deep learning model which can capture opinions and analyze sentiments.
- Built a website in full stack with Python Flask and HTML+CSS/JS to provide online services.

Apr. 2016 – Aug. 2016 **Driver's Alarming System in Vehicle**, *SJTU*.
- Used OpenCV to write a Python program to detect whether the driver's eyes are closed or not.
- Captured picture and sent alarm by running programs in Raspberry Pi.

Awards & Scholarships

2019 - 2020 **Lums Fellowship**, *University of Michigan - Ann Arbor*.

2019 **Outstanding Graduate - Class of 2019**, *Shanghai Jiao Tong University*.

2016 - 2018 **Academic Excellence Scholarship**, *Shanghai Jiao Tong University*, 3 times.

2015 - 2018 **Dean's List**, *UM-SJTU JI*, 6 times.

Skills

Programming: C/C++, PYTHON, Matlab, Julia, R
Vision: OpenCV, PyTorch, TensorFlow
Others: LaTeX, HTML/CSS, JavaScript, Linux
